80 million people, 7 countries, 48 regions,
mountains and plains addressing together
common challenges and opportunities

This project is co-financed by the European Union via Interreg Alpine Space

Policy recommendations

- Strengthen regional & local supporting structures and entities that work in the field of energy, in order to raise awareness among society and local governments

80 million people, 7 countries, 48 regions,
mountains and plains addressing together
common challenges and opportunities

Policy recommendations

- Put in place respective top-down measures to build the framework on which bottom-up approaches can be further developed. And put in place the right tools and measures to link the both.

80 million people, 7 countries, 48 regions,
mountains and plains addressing together
common challenges and opportunities

Policy recommendations

- Make it mandatory for regional governments and municipalities to work on the topics of energy transition and climate change.
