

Programme: AT13-Wien Science and Technology Fund - 2008-2020

Topic/s:

This group shall strive to improve the understanding of substantial current scientific research questions in the field of data science that lead to applicable solutions in and together with other disciplines with potential medium term economic or social benefits. The ability to bridge disciplines is thus a key evaluation criterion. We also encourage new interdisciplinary combinations.

It addresses Vienna-based universities and research institutions that intend to hire an excellent young researcher from abroad for setting-up and managing of an independent research group. Active recruitment procedures are mandatory.
