

Programme: EU-HORIZON 2020 Industrial leadership - 2014-2020

Call:

DT-NMBP-11-2020

Topic/s:

The aim is to establish an open innovation platform for integrated materials modelling and materials processing development for industry that would facilitate setting up experiments, reduce error and enhance efficiency of the development process.

A modelling framework applicable to a certain type of materials and their related processing technologies should be developed. This modelling framework should develop a seamless and standardised integration of third party physics-based models, solvers, post-processors and databases based on existing and emerging standards for semantic interoperability across domains, resulting in an open framework.

AG1 priority fields: Advanced Manufacturing

Call Budget: 12000000,00€

Co-funding type:

Co-funding type: € euro

Opening date: 03 Jul 2019

Deadline date: 12 Dec 2019; 14 May 2020

,

Deadline date: 12 Dec 2019; 14 May 2020
