WELL-GOVERNED
Alpine Space

EUSALP ACTION GROUPS

1

To develop an effective research and innovation ecosystem

2

To increase the economic potential of strategic sectors

3

To improve the adequacy of labour market, education and training in strategic sectors

4

To promote inter-modality and interoperability in passenger and freight transport

5

To connect people electronically and promote accessibility to public services

6

To preserve and valorise natural resources, including water and cultural resources

7

To develop ecological connectivity in the whole EUSALP territory

8

To improve risk management and to better manage climate change, including major natural risks prevention

9

To make the territory a model region for energy efficiency and renewable energy

ABOUT

The Interreg Alpine Space programme is a European transnational cooperation programme involving seven countries (AT, CH, DE, FR, IT, LI, SI). It co-finances projects to make the region more innovative, develop low carbon solutions, valorize the cultural and natural heritage, and improve transnational governance.

www.alpine-space.eu/project_overview

EUSALP is an EU macro-regional strategy based on a joint initiative of Alpine states and regions. It sets the strategic framework for cooperation in the Alpine region, supporting the alignment of relevant policy instruments. Alpine Space projects actively contribute to the strategy.
