

EUSALP Energy Observatory - Slovenia

Bolzano, 20.03.2018

Miro Kristan, Soča valley development centre

National energy policy

- **National action plan for efficient energy use (2020) – national/regional/local**
- Objective: primary energy use should not rise more than 2% (comparing to 2012) – improvement of efficiency by 20% (households, public sector, economy, traffic)
- **National action plan for renewable energy sources (2020)**
- Objective: 25% of RES in final energy consumption by 2020

Energy monitoring (1)

- **Energy monitoring: in place since 2000**
- **Relevant data:**
 - electricity production and distribution
 - coal production
 - supply of electricity to final consumers
 - RES production
 - prices (electricity, oil)
- Data providers (the regulation sets rules who has to provide data)

Energy monitoring (2)

- Method (bottom up)
- Tools (e-platform), www.energetika-portal.si
- Data is public and also accessible to local authorities (local energy concept)

The screenshot shows the EPOS E-POROČANJE portal interface. The browser address bar displays <https://epos.de.gov.si>. The page header includes the logo of the Ministry of Infrastructure and the title "PORTAL ENERGETIKA EPOS E-POROČANJE". The main content area contains a welcome message in Slovenian, explaining the purpose of the portal and the data collection process. Below the text, there is a login section titled "PRIJAVA" with a prompt to log in using a username and password. The login fields are labeled "Uporabnik" (Username) and "Geslo" (Password), with a "Potrdi" (Confirm) button. At the bottom of the page, there are links for "AKTUALNO", "INFORMACIJE", "POZABLJENO GESLO", and "POMOČ". The footer contains copyright information: "© 2012 Ministrstvo za infrastrukturo - Direktorat za energijo" and "Natisni | Na vrh | Produkcija: ORG. TEND d.o.o."

Ministrstvo za infrastrukturo
PORTAL ENERGETIKA
EPOS E-POROČANJE

Dobrodošli na spletni strani EPOS - poročevalskega sistema za e-poročanje podatkov izvajalcev energetskih dejavnosti, ki deluje v okviru Portala Energetika.

Portal EPOS omogoča poenoteno zbiranje in arhiviranje podatkov s področja energetike za potrebe resornega ministrstva, ki se zagotavljajo s strani poročevalskih enot. Uporabnikom prijazne tehnološke rešitve omogočajo enostavno uporabo pri izvedbi poročanja podatkov in izdelavi poizvedb arhiviranih poročil z možnostjo izvoza rezultatov za morebitno nadaljnjo obdelavo.

Dostop je možen samo registriranim uporabnikom za namene izvajanja obveznosti poročanja podatkov.

PRIJAVA

Prijavite se z dodeljenim uporabniškim imenom in geslom.
