Via Circonvallazione, 106 11013 Courmayeur AOSTA

<https://www.google.com/maps>

2<sup>nd</sup> day – 24 May 2019

Skyway Monte Bianco

Strada Statale 26 dir, n° 48 - Entrèves

11013 Courmayeur AOSTA

[www.montebianco.com](http://www.montebianco.com)

Skyway Monte Bianco is a cableway that reaches 3,466 meters. It is a technological and engineering marvel, that has been rebuilt recently and inaugurated in 2015. Today, it includes 3 stations: Courmayeur (1,300 m), Pavillon (2,173 m) and Punta Helbronner (3,466 m).

At Punta Helbronner the temperatures can drop below 0°, so we suggest long pants, a jacket, sunscreen, and sunglasses. Also gloves, a hat, etc. ... equipment must be assessed based on individual sensibility.

There are no particular requirements, but we advise you to consult your doctor in case of heart conditions. The first part of Friday session of the event will take place at **Pavillon Station**, which will allow to get used to the altitude before continuing up to the higher elevations. In case of bad weather at Punta Helbronner, the entire Friday session will take place at Pavillon Station.
