## EVENT GOALS & OBJECTIVES

- Presenting the regional action for sustainable development in a global vision
- Giving visibility to the actions of the signatories of the Lombard Protocol for Sustainable Development, according to the commitment undertaken
- Opening a discussion on the “Regional Strategy for Sustainable Development”
- Involving new actors to accelerate the action for sustainable development

*These aims are now embedded in a completely new context generated by the pandemic, where on the one hand the need to guarantee a renewed balance between man and environment/nature has arisen even stronger, while on the other hand economic uncertainty affects the both current and future plans. We need an immediate and forward-looking recovery. The Forum will provide food for thought in an open and participative way.*
