INNTAL – a traffic hot spot – key issues

INNTAL – a traffic hot spot – facts:

- **transit route:** 2.5 million trucks the „INNTAL“ per year
- **tourism-related high volume of traffic:** traffic jams
- **tolls:** last week Austrian Parliament decided an exemptions of the general toll-system for motorways in Austria which concerned as well a part of the A12-Inntal-Autobahn (motorway: From the boarder to Exit Kufstein south)
- **communting transport:** headquarters of many larger companies and their operations in the valley
- **Internal border controls:** Germany reinstates Austrian border checks. The German government has effectively suspended the Schengen agreement by reinstating controls at its borders with Austria, with regulary passport checks.
